

XI Conference – European Congress of Methodology

Wednesday 23 July 2025

Symposium : "Recent Developments in Meta-Analysis" (10:00 - 11:30)

time	[id] title	presenter
10:00	[281] Can We Include Dichotomous Variables in Meta-Analytic Structural Equation Modeling? Mind the Prevalence	
10:15	[282] Fitting two-level structural equation models to meta-analytic data	
10:30	[283] Reporting Biases Analyses in Psychological Meta-analyses: Current Practices and Robustness of Conclusions	
10:45	[284] Comparing Type I error and power rates in meta-regression with multiple effect sizes: A study of analytical approaches	
11:00	[285] Correcting for Publication Bias in Moderator Effects: A Simulation Study	
11:15	[286] Correcting for publication bias in multivariate and multilevel meta-analysis: A multivariate step function selection model approach
