

XI Conference – European Congress of Methodology

Thursday 24 July 2025

Session 4 : "Structural equation models and model evaluation" (10:00 - 11:30)

time	[id] title	presenter
10:00	[131] Chasing Normal Linear Unicorns -- More Realistic Fit Indices for SEM	
10:15	[247] Abandon All Thumbs Ye Who Model: Model Fit Evaluation in SEM for a New Century	
10:30	[235] SEMtrees in Longitudinal studies: The utility of goodness-of-fit indices for building theory	
10:45	[153] Regularised SEM-Based Out-of-Sample Predictions	
11:00	[207] Residual Dynamic Structural Equation Modeling for Analyzing Interindividual Variability in Intensive Data from Factorial Experiments
