XI Conference – European Congress of Methodology

Thursday 24 July 2025

Session 15 : "Multilevel models and Individual differences" **(15:00 - 16:30)**

time	[id] title	presenter
15:00	[83] Comparing nested multilevel models with the Vuong test	
15:15	[45] dMuSCLES: Dynamic Multilevel Synthesis of Cross-Classified Learning Events Scores	
15:30	[159] Predicting Intersectional Inequalities Using Multilevel Analysis of Individual Heterogeneity and Discriminatory Accuracy (MAIHDA)	
15:45	[49] A Multi-Method Approach to Investigating Between-Group Differences in Latent Variables	
16:00	[196] semnova: An R Package for Investigating Interindividual Differences in Experimental Effects on Latent Variables	
16:15	[11] Pooling Correlation Matrices in Meta-Analysis: Addressing Hierarchical Effect Size Dependencies
