

XI Conference – European Congress of Methodology

Friday 25 July 2025

Session 18 : "Latent factors and errors in psychometric measurement" (08:30 - 10:00)

time	[id] title	presenter
08:30	[122] Factor Analysis under multimodal latent distributions: A simulation study	
08:45	[249] Initial Attempts to Clean Up the Messy Middle Problem	
09:00	[48] Unpacking the Impact of Measurement Error and Outliers on Three-Way Interactions: Evidence from Monte Carlo Simulations with Best-Practice Recommendations	
09:15	[52] Added value of subscores: Can we accurately evaluate it?	
09:30	[272] Addressing convergence problems in latent variable models	
09:45	[113] From Random Effects to Common Factors: Latent Dimensionality Assessment in Experimental Psychology
