XI Conference – European Congress of Methodology

Thursday 24 July 2025

<u>**Poster Session 3: COFFEE BREAK / POSTERS**</u> **(11:30 - 12:00)**

[id] title	presenter	board
[73] Dilemmas and Methodological Challenges in Research on Older Adults		
[260] Assessing Fear of Heterosexism: Spanish Adaptation and Validation of a Psychological Measure		
[254] Employing item response theory and factor analysis to purify latent trait estimates		
[252] An Exploration of R-squared Effect Size Measures in Mediation		
[256] Psychometric Properties of the Interpersonal Rejection Sensitivity Scale (IRSS) in a Spanish Sample: Factor Structure, Reliability, and Measurement Invariance		
[234] Reevaluating Factor Analysis: Violations of the Reflective Measurement Model and a Proposed Correction for Item Selection Bias.		
[220] Validation of the Multidimensional Scale of Perceived Social Support (MSPSS) in Mental Health Service Users		
[213] Development and Content Validation of the Advance Care Planning Attitudes Scale for Mental Health: Incorporating Mental Health Service Users' Perspectives		
[192] Psychometric properties of Multidimensional Scale of Perceived Social Support in Spanish university students		
[24] A multilevel Ornstein–Uhlenbeck process with crossed random effects for multivariate time series		
[22] Type I error of repeated measures ANOVA with non-sphericity and very extreme deviation from normality		
[194] Assessing false recognition with ad hoc categorical, associative and taxonomic lists.		
[141] Evaluating assumptions on variance magnitude in repeated measures designs: an empirical evaluation		
[167] Differential item functioning in online health-information seeking measurement		
[204] Multiple Imputation of binary outcomes in small sample size scenarios – A comparative study of Predictive Mean Matching and Bayesian Logistic Regression		
[184] Effect of Class Imbalance and Multicollinearity on Parameter Estimation in Binary Logistic Regression		
[219] Trends in Reliability Induction Practices in Neuropsychology: A Systematic Review		
[20] How to use observable responses and hidden states of recurrent neural networks to reason about cognitive aspects of language?		

[144] Evaluation of competence in dementia care among formal caregivers: Adaptation of the Sense of Competence in Dementia Care Staff scale (SCIDS) to Spanish		
[88] Latent Trait-State-Occasions models to analyze state and trait components of Loneliness in European adults and their associations with social contact		
[203] Purifying the ability from external variables.		
[198] Coping Flexibility Among Young Adults from Six Countries: Cross-Cultural Validation of the Coping Flexibility Scale (CFS)
